

# NEON<sup>®</sup> ONE | Analog Output Module

## General description

The NEON<sup>®</sup> ONE | Analog Output Module provides 4 analog outputs for transmitting measurement values and control signals within the NEON<sup>®</sup> ONE platform. Designed for seamless integration with the NEON<sup>®</sup> ONE | I/O Board, it enables precise 0/4–20 mA signal transmission to external devices. The module ensures stable and reliable analog communication.

Item Number: 19516004K

## Technical specifications

Number of outputs	4
Output type	Current, active
Output range	0-20 mA
Galvanic isolation	Yes, against other modules
Max. resistance	500 Ohm
